Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-10 are rejected under 35 U.S.C. 102(b) as being anticipated by Ladner et al. (6,331,825 B1).

Ladner et al. discloses a electronic target locating device that locates the coordinates of at least one target device and determines and determines directions for reaching the target device comprising a global positioning system (GPS) transceiver coordinate device having a means for communicating with a plurality of satellites, means for determining the location of at least one target device within a predetermined range and means for transmitting communications including information on the location of at least one target device and plurality of tracking devices for communicating with a GPS device, each of the tracking devices comprising means for communicating with the GPS device and at least one target, and means for determining a route for reaching the determined location of the target (Column 2 lines 25-54);

at least one antenna and an electronic receiver in communication with at least one antenna and having a plurality of channels adapted for individually

Art Unit: 3663

communicating with a plurality of satellites whereby each channel tracks the transmissions from a single satellite (Column 2 lines 25-38);

a computer processor and at least one set of processor readable software code adapted for calculating the location coordinates of at least one target (Column 3 line 66 – Column 4 line 19);

a transmitter in communication with said means for determining adapted for transmitting location related information in digital format (Column 3 lines 20-40);

wherein the GPS comprises a means for receiving and supplying electrical power to a device (Column 2 lines 49-52);

wherein the tracking device comprises a means for communicating with a GPS device (Column 2 lines 39-46);

wherein said tracking device further comprises a monitor for locating the target and tracking the target on a map (Column 3 lines 27-40).

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Arthur Donnelly whose telephone number is (703) 305-0215.
